

## Department of Physics

香港城市大學  
City University of Hong Kong

July 29, 2019

Ms. ZENG Lanqian  
Dept. of Microelectronics Science and Technology  
Faculty of Physics and Information Engineering  
Fuzhou University, Fuzhou, China, 350108

Re: Visiting Research Student

Dear Ms. ZENG Lanqian,

We are delighted to invite you to the Department of Physics, City University of Hong Kong for a three months research exchange visit (October 1, 2019 to December 30, 2019).

The actual duration of your visit will accumulate from the date you reported to the Department and may refer to our SGS website to apply for as visiting research student:

<https://www.sgs.cityu.edu.hk/prospective/visitingrpg#10>. During your visit to our university, you will be with the Department of Physics, working with Dr. CHU, Sai Tak's research group on the subject of linear and nonlinear integrated optics.

The plan for your research exchange is follow:

Period	Activities
Weeks 1 to 4	Develop dispersion measurement method for integrated optical waveguides.
Weeks 5 to 8	Research on the measurement technique of nonlinear parameters of highly doped integrated optical waveguides.
Weeks 9 to 12	Summarize research results and prepare reports.

We look forward to your visit to our group. We believe your visit will greatly benefit our research and we anticipate the outcome from your visit will lead to some exciting results and further fruitful collaboration. Fuzhou University will provide the complete financial support for your stay in Hong Kong. City University of Hong Kong will assist you in the application process for your visit. If you have any questions or need any assistance, please feel free to contact me.

With best regards,

Chu, Sai Tak  
Associate Professor
